HAND HYGIENE PRODUCTS

A close-up photograph of a person's hands. The person is wearing a white, textured knit sweater. They are holding a clear plastic bottle of hand sanitizer in their right hand, with the cap removed. A stream of clear gel is being dispensed from the bottle into the palm of their left hand. The background is slightly blurred, showing a dark wooden table with a white plate of food and a glass.

Hand rub

Instant hand sanitizing liquid that kills 99.9% of germs. Contains 70% alcohol and Chlorhexidine Gluconate – extra protection against germs. Ideal to use on cash counters, mall and shop entrance, reception areas, hospitals and other high risk/ high traffic areas
